CLICK ON WWW.NYSGE.ORG TO REGISTER

To challenge the expert panel, participants are encouraged to submit image or video files of their difficult cases. Please email your submission to Dr. David Robbins (DRobbins@northwell.edu), Dr. Jerome Waye (jdwaye@aol.com) and the NYSGE Office (info@nysge.org) by March 20, 2018.

PROGRAM DESCRIPTION

Considerations for managing difficult colonoscopies will be presented including use of water, scope guide, overtube, positioning, abdominal pressure, stiffeners, and endoscope selection. Polypectomy options such as EMR or ESD, snare type and selection, injection agents, tattooing, and argon plasma coagulation vs. soft coagulation vs. avulsion will also be discussed. Complications of colonoscopy including perforations and the use of clips and suturing devices to aid in control of bleeding or repair of the GI lumen and wall will be examined.

LEARNING OBJECTIVES

- Recognize how difficult cases of colonic intubation are managed and the incidence of failure to complete colonoscopy in such cases
- Identify techniques for managing large and complex polyps and when to apply them
- Recognize different methods for managing complications of colonoscopy and when to apply them

INTENDED AUDIENCE

Gastroenterologists and Gastroenterology Fellows

PROGRAM

6:00 pm – 7:00 pm	Registration and Refreshments
7:00 pm	Welcome David H. Robbins, MD, MSc Jerome D. Waye, MD
7:00 pm – 7:20 pm	Completing the Impossible Colonoscopy Jerome D. Waye, MD <ul style="list-style-type: none">• Review of case videos/images with audience interaction• Review of difficult cases submitted by participants
