

# AGENDA

## Friday

12:30 PM Introductions (Drs. Fan, Sbitani)

### Session 1: Revolutionizing Breast Cancer Diagnosis: Innovations in Imaging, AI, and Radiomics

12:40-1:00PM	Contrast Based Screening	Elizabeth Morris, MD
1:00-1:20 PM	AI and Radiomics in Breast Imaging: 2024 update	Richard Ha, MD
1:20-1:40 PM	AI: how it can level the playing field in Healthcare disparity	Rachel Brem, MD
1:40-2:00 PM	Changes to the Mammography Report in 2024: MOD and BAC	Joanna Rossi, MD
2:00-2:20 PM	Panel Discussion	Moderator: Laurie Margolies, MD

### Session 2: Survivorship Resilience: Navigating Challenges and Empowering Breast Cancer Patients

2:20-2:40 PM	Physical Therapy after Breast Cancer Surgery: Adapting to the New Normal	Maureen McBeth, MPT
2:40-3:00 PM	Survivorship and Breast Cancer: How do we follow our patients and how long?	Jennifer Son, MD
3:00-3:20 PM	How to Manage and Advise Intermediate Risk Gene Patients	Melissa Frey, MD
3:20-3:40 PM	Onco-Fertility, BRCA PGT-M Treatment	Devora Aharon, MD
3:40-4:00 PM	Panel Discussion	Moderator: Jennifer Son, MD
4:00-4:20 PM	Break	

### Session 3: Advancements in Breast Reconstruction

4:20-4:40 PM	Mesh-less Reconstruction	David Otterburn MD
4:40-5:00 PM	Prepectoral Breast Reconstruction: An Update on Technique and Selection Criteria	Hani Sbitany, MD
5:00-5:20 PM	Direct to Implant	Jordan Jacobs, MD
5:20-5:40 PM	Lymphatic biology, Node transfer. How we prevent and treat lymphedema	Babak Mehara, MD
5:40-6:00 PM	Panel Discussion	Moderator: Hani Sbitany, MD

## Saturday

7:00-8:00 AM Continental Breakfast  
 8:00 AM Opening Remarks by Dr. Lucy De La Cruz MD

### Session 4: Breast Surgical Challenges and Approaches: Pioneering Breast Surgery Techniques

8:00-8:15 AM	Management of Residual Breast Tissue after Mastectomy	Christina Weltz, MD
8:15-8:30 AM	Oncoplastics for the breast surgeon: What are we doing on our own?	Abhishek Chatterjee, MD
8:30-8:45 AM	Current Breast Surgery Clinical Trials	Anna Weiss, MD
8:45-9:00 AM	Proceed or Not to Proceed: Surgery in Metastatic Stage IV Breast Disease	David N Anderson, MD
9:00-9:15 AM	Panel Discussion	Moderator: David Anderson, MD

### Session 5: Empowering Diversity: Redefining Breast Cancer Care for All

9:15-9:35 AM	Breaking Barriers: Ensuring Access to Breast Cancer Care	Christine Rohde, MD
9:35-9:55 AM	Intersecting Paths: Unveiling the Influence of Race, Ancestry, and Immune Biology in Breast Cancer	Lisa Newman MD and Melissa B. Davis, MD
9:55-10:15 AM	Breaking Barriers, Unlocking Potential: Diversity in Breast Cancer Immunology and Personalized Therapeutic Strategies	Lucy De La Cruz, MD
10:15-10:30 AM	Panel Discussion	Moderator: Lucy De La Cruz, MD

9:30-9:45 AM	Prophylactic lymphaticovenous bypass: Is there a role in prevention after axillary dissection?	Raj Parikh MD
9:45-10:00 AM	Neurotization of breast flaps	Lisa Gfrerer MD
10:00-10:15 AM	Pluses and Minuses of Omission of Axillary Node Dissection in Clinically Node Negative, Biopsy Proven Node Disease	Lucy De La Cruz, MD
10:15-10:30 AM	Panel discussion	Lucy De La Cruz, MD
10:30-11:00 AM	Coffee Break	

---

### Session 12: De-escalation of Therapy in Breast Cancer

**Moderator: Henry Kuerer MD**

11:00-11:15 AM	De-escalation of Surgery in Breast Cancer: Current Evidence and Future Directions	Henry Kuerer MD PhD
11:15-11:30 AM	Opting for No Reconstruction- What are the Trends? Who Shouldn't and who Doesn't?	Alice Yao MD
11:30-11:45 AM	De-escalation of Radiation Therapy in Breast Cancer: When Less is More	Bruce Haffty MD
11:45-12:00 PM	Panel Discussion (Henry Kuerer MD)	Bruce Haffty MD

---

### Session 13: How I Do it Section

**Moderator:**

12:00-12:15 PM	Delayed DIEP	PJ Torina MD
12:15-12:30 PM	Robotic muscle harvest	Suhail Kanchwala MD
12:30-12:45 PM	Stacked flaps	Alice Yao MD
12:45-1:00 AM	Patient reported outcomes	Jordan Jacobs MD
1:00-1:15 PM	Panel Discussion (PJ Torina MD)	Jonas Nelson MD
		PJ Torina

**Adjourn**
