THE CLINICIANS' GUIDE TO PERSONALIZED THERAPEUTICS (PHARMACOGENOMICS)

Internet Live Event Via Zoom

January, 2022 - September, 2022
6 PM EST for each Session

PROGRAM DESCRIPTION

This continuing medical education (CME) activity is for those interested in expanding their knowledge in **Pharmacogenomics**.

Program Objectives:

- Provide healthcare professionals with the tools needed to incorporate pharmacogenomics (PGx) into their own practices.
- Explain the relevant knowledge necessary for understanding the background and key concepts in clinical PGx.
- Highlight PGx implications for clinical practice especially in cardiology, pain, psychiatry and other specialties.
- Inform guidance on genetic testing, return of results, applications in patient care.
- Discuss current and future PGx initiatives in the Mount Sinai Health System.

ATTENDEES

Target audience intended for:

physicians
nurse practitioners
physician assistants
nurses
pharmacists
students/residents/fellows

Faculty Disclosure

It is the policy of Icahn School of Medicine at Mount Sinai to ensure objectivity, balance, independence, transparency, and scientific rigor in all CME-sponsored educational activities. All faculties participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationship. Presenters must also make a meaningful disclosure to the audience of their discussions of unlabeled or unapproved drugs or devices. This information will be available as part of the course material.
