Program Overview
Cardiovascular disease continues to dominate our society and remains the number #1 killer worldwide in both men and women. Approximately one-third of total deaths globally are a result of the various forms of cardiovascular disease. A cardiovascular disease-related event causes a death every minute in the United States; therefore, the field of Cardiovascular Disease in terms of diagnosis and treatment continues to evolve with the final goal of improving the overall care and prognosis of patients suffering from a variety of cardiovascular diseases.

The Top Ten Topics in Clinical Cardiology is poised to help healthcare professionals stay current on new and emerging approaches in the diagnosis, management and treatment of heart disease. A robust agenda combines individual and collective opinions from field expert clinicians and scholars.

Program Goal
As a comprehensive hybrid medical education conference, this course will offer the latest updates for diagnostic and treatment strategies that assess the risk and treatment of coronary artery disease, congestive heart failure, hypertension, mitral valve regurgitation, aortic stenosis, and co-morbid cardiometabolic diseases. The use of case-based reviews will demonstrate innovative therapeutic techniques aimed at improving patient outcomes and quality of life, as well as lowering morbidity and mortality rates through the management of various cardiac conditions.

Target Audience
General Cardiologists, Interventional Cardiologists, Internists, Family Practitioners, Cardiology Fellows, Nurses, Technicians and other allied health care professionals.

Accreditation
The Icahn School of Medicine at Mount Sinai is accredited by the Accreditation Council for Continuing Medical Education to provide Continuing Medical Education for physicians.

Credit Designation
The Icahn School of Medicine at Mount Sinai designates this live activity for a maximum of 5.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Verification of Attendance
Verification of attendance will be provided to all professionals.

In-Person Attendance Policy
All in-person meeting participants must be fully vaccinated and must wear masks at all times. By registering for and attending the meeting, each participant affirms that they will comply with all CDC, federal, state, and local laws, orders, directives, and institutional guidelines related to COVID-19 and attending a large gathering.

We take the health and safety of our conference participants and staff seriously. We will continue to monitor the U.S. Centers for Disease Control and Prevention (CDC) and U.S. state and local health authorities for the latest public health updates, as well as applicable restrictions on events and gatherings. Top Ten 2021 plans to hold this meeting in hybrid format but reserves the right to convert it to a 100% virtual event if health and safety restrictions require it. We will update the registrants and the website should the plans for this event change.

COURSE DIRECTORS

Samin K. Sharma, MD, MSCAI, FACC
Senior Vice-President, Operations & Quality, Mount Sinai Heart
Director, Clinical & Interventional Cardiology
President, Mount Sinai Heart Network
Anandi Lal Sharma Professor of Medicine, Cardiology

Jagat Narula, MD, PhD, MACC
Chief of Cardiology, Mount Sinai at Morningside
Director, Noninvasive Cardiology, Mount Sinai Health System
Philip J. and Harriet L. Goodhart Professor of Medicine, Cardiology

Annapoorna S. Kini, MD, MRCP, FACC
Director, Cardiac Catheterization Laboratory
Director, Interventional Cardiology Fellowship Program
Interventional Director, Structural Heart Program
Zena & Michael A. Wiener Professor of Medicine, Cardiology

MOUNT SINAI FACULTY

Valentin Fuster, MD, PhD, MACC
Physician-in-Chief, Mount Sinai Hospital
Director, Mount Sinai Heart
Professor of Medicine, Cardiology

Roxana Mehran, MD, FACC, FAHA, MSCAI
Director of Interventional Cardiovascular Research and Clinical Trials
Professor of Medicine, Cardiology
Professor of Population Health Science and Policy

David L. Reich, MD
President and Chief Operating Officer,
The Mount Sinai Hospital
Horace W. Goldsmith Professor, Anesthesiology, Perioperative and Pain Medicine

GUEST FACULTY

Javed Butler, MD, MPH, MBA
Patrick H. Lehan Chair in Cardiovascular Research
Professor and Chairman of the Department of Medicine
University of Mississippi Medical Center
Jackson, MS

Edward T. A. Fry, MD, FACC, FSCAI
Chair, Ascension Health CV Service Line
Vice President, American College of Cardiology
Indianapolis, IN

Jonathan Leipsic, MD, MSCCT
Chairman of the Department of Radiology
Professor of Radiology and Cardiology
Providence Health Care
The University of British Columbia
Vancouver, BC

Peter Libby, MD
Mallinckrodt Professor of Medicine
Harvard Medical School
Brigham and Women’s Hospital
Boston, MA

Muthiah Vaduganathan, MD, MPH
Brigham and Women’s Hospital
Harvard Medical School
Boston, MA

Learning Objectives
Looking into the future of what cardiovascular medicine will become over the next few years, the overall goal of this program is to enhance competency by providing participants with the most up-to-date developments in the diagnosis, treatment and management of cardiovascular disease and to facilitate this transfer of knowledge into practice to improve patient outcomes.

Upon completion of this program, attendees should be able to:

- Appreciate the role of noninvasive testing in the diagnosing of CAD and provide prognostic information.
- Recognize innovative approaches in treatment of heart failure.
- Identify the trials abbreviating the aspirin duration post PCI.
- Acknowledge, through evidence-based results, recent transcatheter mitral valve therapies with special focus on MitraClip procedures.
- Incorporate the latest advances within interventional cardiology and their implications in overall patient care, improving interventional outcomes.

In-Person Registration Fees
– Physicians $100
– Physician Assistants, Nurse Practitioners, Allied Health Professionals $50
– Residents/Fellows *Complimentary
– Mount Sinai Health System (MSHS) Employees $25

Virtual Registration Fees
The Top Ten Topics in Clinical Cardiology course will also be live-streamed for online attendance and participation via our live viewing web platform. Viewing the symposium virtually is complimentary, however you must register in order to obtain the login code. Attendees who will be claiming a CME Certificate will be charged a $25.00 processing fee prior to completing the post conference survey.

Cancellation Policy:
All refund and cancellation requests must be emailed to the CME office at cme@mssm.edu by October 1st, 2021. Cancellations after this date are not eligible for a refund. An administrative fee of $50 will be deducted from your refund. No refunds will be issued for registration fees that are equal or less than $50.

Conference Information
For additional information, email cme@mssm.edu.

Faculty Disclosure
It is the policy of ISMMS to ensure objectivity, balance, independence, transparency, and scientific rigor in all CME sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationship. Presenters must also make a meaningful disclosure to the audience of their discussions of unlabeled or unapproved drugs or devices. This information will be available as part of the course material.
