ICAHN SCHOOL OF MEDICINE AT MOUNT SINAI

*Bonnie M. Davis, MD and Kenneth L. Davis, MD Auditorium
The Leon and Norma Hess Center for Science and Medicine
1470 Madison Avenue (between 101st & 102nd Street)
New York, NY 10029*

COURSE DIRECTOR

MARK W. GREEN, MD, FAAN

*Professor of Neurology, Anesthesiology,
and Rehabilitation Medicine
Director, Headache and Facial Pain*

<https://mssm.cloud-cme.com/5AdvNeuro>

PROGRAM DESCRIPTION

The 5th Annual Advances in Neurology is a full-day live CME activity that will provide clinicians with an update on diagnostic processes, cutting-edge technologies, and innovative management strategies in these areas of neurology: migraine, movement disorders, stroke, multiple sclerosis, physician-patient communications, epilepsy, and neuromuscular emergencies. Through didactic lecture, case presentations, and interactive discussions with expert clinicians, attendees will be better enabled to diagnose and manage adults and children living with neurologic disorders in 2018 and beyond. *Patient simulators will interact with faculty to provide an enhanced learning experience for participants.*

EDUCATIONAL OBJECTIVES

After having participated in this CME activity, learners will be able to...

- **Discuss** existing, new, and potential options for migraine prevention including oral medications, devices, injectables, and interventional therapies.
- **Utilize** the updated guidelines and criteria for diagnosing and categorizing multiple sclerosis and describe a comprehensive management plan.
- **Recognize** the features of various movement disorders and describe options for management.
- **Identify** appropriate treatment approaches for acute ischemic stroke and describe cases that are appropriate for referral to comprehensive stroke centers offering acute endovascular interventions.
- **Describe** new medical and surgical options for the treatment of epilepsy, including their use in patients with autism.
- **Employ** strategies for optimizing communications with patients and families.
- **Recognize** the symptoms of acute neuromuscular dysfunction and discuss evidence-based clinical protocols for management.

WHO SHOULD ATTEND?

This symposium is designed for adult and child neurologists as well as other specialists in related fields (neurosurgery, psychiatry, rehabilitation medicine, internal medicine, pediatrics, geriatrics); residents and fellows; and other healthcare professionals involved in the care of patients with neurologic disorders (nurse practitioners, nurses, physician assistants, physical therapists, occupational therapists).

Accreditation

The Icahn School of Medicine at Mount Sinai is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation

The Icahn School of Medicine at Mount Sinai designates this live activity for a maximum of **6.75 AMA PRA Category 1 Credit(s)**[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Verification of Attendance

Verification of attendance will be provided to all professionals.

Special Needs

The Icahn School of Medicine at Mount Sinai is in full compliance with provisions of the Americans with Disabilities

Act (ADA) and is accessible for individuals with special needs. If you would like to attend this conference and require any special needs or accommodations please contact the Page and William Black Post-Graduate School of Medicine at 212-731-7950.

Faculty Disclosure

It is the policy of Icahn School of Medicine at Mount Sinai to ensure objectivity, balance, independence, transparency, and scientific rigor in all CME-sponsored educational activities. All faculty participating in the planning or implementation of a sponsored activity are expected to disclose to the audience any relevant financial relationships and to assist in resolving any conflict of interest that may arise from the relationship. Presenters must also make a meaningful disclosure to the audience of their discussions of unlabeled or unapproved drugs or devices. This information will be available as part of the course materials.
