Credit Designation

The Icahn School of Medicine at Mount Sinai designates this live activity for a maximum of 7.0 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Activity Description

This conference will assemble multidisciplinary experts on chronic liver diseases, hepatocellular carcinoma (HCC) and cholangiocarcinoma (CCA) from the Mount Sinai Liver Cancer Program and two outstanding invited lecturers. The meeting is intended to provide a summary of the state-of-the-art knowledge of the novel advancements reported in 2019 on the pathogenesis and clinical management of liver cancer, including the research conducted in Mount Sinai.

Activity Learning Objectives

- Understand the epidemiology and disparities of liver cancer in the US.
- Review the current role of surgical and loco-regional treatments for liver cancer.
- Critical review of molecular therapies and SBRT in the management of advanced HCC.
- Understand the molecular rationale for immune therapies in HCC.
