Statement of Need

The inaugural Palliative Radiation Oncology Symposium will be a one-day conference for all members of the radiation oncology community (physicians, nurses, radiation therapists, trainees, students). The conference's purpose will be to highlight the latest evidence-based advances in the field relevant to the care of advanced cancer patients undergoing radiation therapy.

Educational Objectives

At the conclusion of this activity, participants will be able to:

- Describe recent innovations in the multidisciplinary management of advanced cancer patients.

- Describe the rationale and indications for palliative radiation and immunotherapy for patients with metastatic lesions.

- Discuss challenging cases in palliative radiation including the selection and appropriate management of patients requiring re-irradiation.

- Identify methods for reducing RT-induced treatment burdens among patients receiving palliative radiation.

Who Should Attend

All healthcare providers caring for advanced cancer patients, particularly in Radiation Oncology, Medical Oncology and Palliative Medicine.

Accreditation Statement

The Icahn School of Medicine at Mount Sinai is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Credit Designation

The Icahn School of Medicine at Mount Sinai designates this live activity for a maximum of 8.0 *AMA PRA Category 1 Credit(s)*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Verification of Attendance

Verification of attendance will be provided to all professionals.
