Mount Sinai Downtown

Zoe Rodriguez

Assistant Professor of Obstetrics,
Gynecology and Reproductive Science
Mount Sinai Downtown

PROGRAM DESCRIPTION

This annual symposium will serve as an update on range of oncology topics including screening guidelines for commonly treated cancers; evaluating individual cancer genetic risk and procedure for genetic testing, the biology of site specific cancers and its impact on individualizing patient treatment i.e. sub-types of breast cancer, HPV-positive head and neck cancer, molecular biology of lung and colorectal cancers. The symposium will also address survivorship goals for cancer patients treated with multi-disciplinary approach.

ACTIVITY LEARNING OBJECTIVES

- Describe the most current guidelines for cancer screening and prevention.
- Review the latest developments in cancer biology and genetics in personalizing cancer care.
- Discuss survivorship goals for cancer patients treated with multi-disciplinary approach

Primary Care Symposium

Cancer Update for the Non-Oncologist
